

# Smart Cities

“Our city infrastructures will need to be fundamentally changed to deal with the inevitable dawn of smart cities”

*Talal Abu- Ghazaleh*

[tag-academy.com](http://tag-academy.com)

With the growth and pervasiveness of the internet, it is only a matter of time that our cities become intelligent, almost taking on a life of their own.

Smart cities will take advantage of the technology revolution and introduce ICT-enabled environments in all aspect of our daily lives, controlled and connected through sensors and technologies that will be available through the IoT which will usher in the coming of a smart world to permeate all aspects of human life.
