

About E-Solutions Training Services

The E-Solutions Training Services is part of the Talal Abu-Ghazaleh E-Solutions Department that focuses on preparing software engineers and developers to meet the market needs with full confidence and solid understanding of the technology needed.

With easy-to-follow instructions, immediate feedback, up-to date, and a tested curriculum take anyone from non-technical to “I can code.”

Our training courses are based on: workshops and boot camps and traditional key methods.
