

Talal Abu-Ghazaleh Knowledge Society (TAG-KS) Stations 2019

TAG-KS transforms the vision of its founder, HE Dr. Talal Abu-Ghazaleh, with regard to providing a suitable environment for all youth capable of becoming the next generation of leaders in a world that depends on knowledge and technology.

Objective:

The objective is the transformation to a digital and knowledge-based economy, and making the opportunity available to use information and communications technology (ICT) as an effective tool to serve the Arab community with its different categories, along with focusing on the less fortunate communities in order to bridge the digital gap. Furthermore, TAG-KS also aims at developing human resources and enabling them of acquiring modern economic skills, in order to enhance their competitive capabilities with regard to getting jobs and to increase their professional efficiency, with the aim of complementing the exerted efforts, to contribute to achievement of comprehensive socio-economic development at the level of population groups. TAG-KS seeks that direct effects of such efforts will reflect on individual's life and welfare.

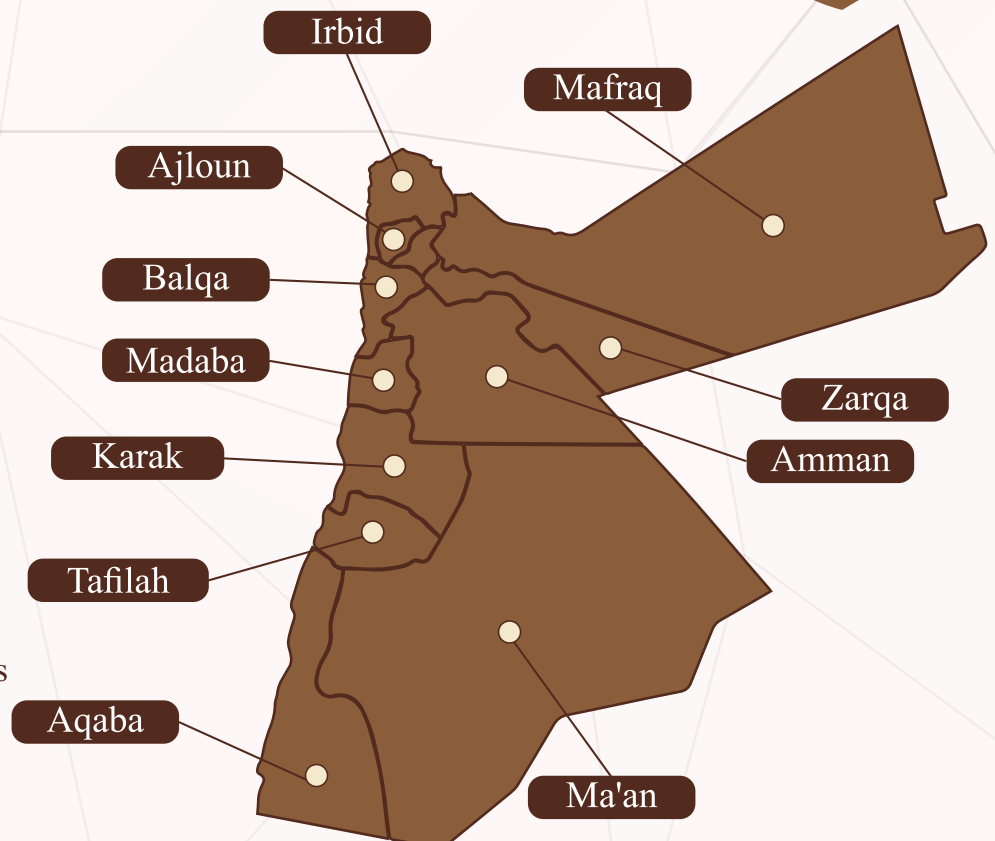

Vision and Mission:

Talal Abu-Ghazaleh Knowledge stations aim at supporting the Arab youth community to develop the youth's skills and their scientific and practical capabilities, in order to contribute to building their professional future in the optimal way through their community service programs.
